ADVANCING SCIENTIFIC DISCOVERY

Cepia is proud to support the J. Russell Hornsby Professorship in Biomedical Sciences. This professorship reflects the entrepreneurial spirit of Mr. Hornsby as well as his broad range of interests. The person who holds the professorship will exemplify the commitment of Mr. Hornsby to advancing medical research through entrepreneurial efforts and multidisciplinary sciences to benefit humanity. The current J. Russell Hornsby Professor in Biomedical Sciences, Dr. Samuel A. Wickline, is an entrepreneur working in the field of nanotechnology, and he has academic appointments in four departments.
